BILL EASTERLY & ASSOCIATES
INJURY LAWYERS

Highway Crash Worksheet

Timeline, roadway position, and overhead signs

TIME

Date; impact time (Central); time source and any clock uncertainty.

LOCATION

Direction; mile marker or interchange; mainline or ramp; before or after the interchange.

LANES AND POSITIONS

Your lane from the left and total lanes; other vehicles; first contact and final stop.

OVERHEAD SIGNS

Gantry location; lane, number, or symbol; seen before or after impact; time and visibility.

Complete this only once you are safe. Do not write or photograph while driving.

INJURY LAWYERS

Highway Crash Worksheet

Impact sequence, evidence, and follow-up details

IMPACT SEQUENCE

What you saw, heard, or felt, in order. Note gaps, uncertainty, or what you cannot determine.

EVIDENCE AND CONTACTS

Original files and backups; witnesses; responding agency and report number; who has each vehicle.

Write “unknown” rather than guessing. Keep original files and add later corrections separately.
